This book tells the stories of some of the most important African American scientists and inventors. It highlights their achievements and explores the challenges they faced. It is a celebration of black excellence and a testament to the power of perseverance.

Some of the African American scientists and inventors featured in this book include:

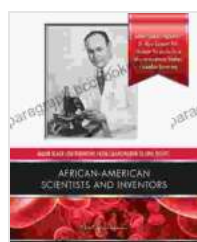

- **George Washington Carver**, who developed hundreds of uses for peanuts and soybeans
- **Garrett Morgan**, who invented the traffic light and the gas mask
- **Percy Julian**, who synthesized cortisone and other important drugs
- **Mae Jemison**, who became the first African American woman to travel into space
- **Mark Dean**, who invented the personal computer

These are just a few of the many African American scientists and inventors who have made significant contributions to our world. Their stories are an inspiration to us all.
