David was born with a rare medical condition called arthrogryposis multiplex congenita, which left him with limited mobility in his legs and arms. Despite his challenges, David always dreamed of playing baseball. He started playing when he was just four years old, and quickly fell in love with the game.

As David got older, he faced doubts from others who told him he would never be able to play baseball at a high level. But David refused to give up on his dream. He worked hard, honing his skills and proving that anything is possible with determination.

In 2002, David's dream came true when he was drafted by the New York Yankees. He went on to play in the major leagues for eight seasons, winning a World Series championship with the Boston Red Sox in 2013.

David's story is an inspiration to anyone who has ever faced adversity. It shows that anything is possible with determination and belief in oneself.
